EMIL AJDUK
think + design + develop

Multidisciplinary designer / front end developer, with 13 years of experience, specialized in pixel perfect coding and UX/UI design with a background in 3D modeling and animation. Focused on designing and building modern and functional applications with user-centric interfaces which comply with the latest web standards and technologies. Hands-on knowledge of complete product development lifecycle with ability to articulate design vision at any level. Proven ability to organize, create strategy, interact with co-workers and deliver products.
